Subject RE: Michigan call

History: This message has been forwarded.

Thanks Elise. Monday presents some scheduling issues for us. Could we do the call regarding the Michigan sites on Tuesday morning? Say 10:30 am? If this works for you, please proceed with circulating a dial-in number. Also, we are available at 5pm EDT today for a call relative to the Kansas sites. Again, please proceed with circulating a dial-in number.

Subject: Michigan call

Patrick and Karen,

The technical people working on the Michigan properties need more time to process and analyze your proposal and their observations at the site visits on Wednesday and to review the additional 700 pages of documents we received this week. So, rather than having the Michigan call this afternoon, we'd like to suggest moving the Michigan follow up call to next Monday.

So as not to lose the day, however, we suggest that we have a call at 5pm Eastern today to discuss the Kansas sites -- focusing primarily on the non-Galena sites.

Would you be available?
